

Olga Kosek – Letter of Motivation

About my motivation:

I compete in UIAA Ice Climbing Competitions since 2014, every year without any break. During those years - I learned a lot about competitions itself but also about athletes. My language skills (knowing English, Russian and French) allowed me to make a lot of friendship with many athletes from different countries. Now, after all this years I feel that athletes very often ask for my help: from basic stuff like languages problems and translation to more complicated things like helping with some rules issues. Somehow I'm involved with any bigger problem at competitions venues, even that (really!) I don't ask for that ;-). But athletes come themselves to me and ask to solve their problems because they know I will do my best for them, that I know rules and I was always standing on their side - explaining if they were wrong or helping them if they were right. That's why I think I would be a good representant for Athlete Group.

Best regards,
Olga
