

▫Masato Nakajima CV

I have been participating in the World Cup since 2016.

Also, since last year, I have become an aspirant to obtain an international route setter qualification so that I can contribute more to this sport.

In recent years, I have been exploring the possibilities of this sport all year round by attempting high-difficulty routes at rock faces overseas.

▫Motivation

I have been thinking for a long time about how to develop this sport in Japan.

It is expanding little by little, but I believe that developing the World Cup and other events with this group and eventually reaching the Olympics will lead to development in Japan.

And I would also like to develop this sport further by communicating more with athletes from other countries and listening to your opinions, and I would like to enjoy it myself.
